

28<sup>th</sup> August , 2013

Dear Sir

The brand **CONST** stops on the international market, **ADDITEL** is the new brand for this market.

Const & Additel have different models but the products are the same, thus ensuring the quality of the material, proper operation of the equipment, maintaining prices, sales policies and warranty.

A clear advantage of having a stand and support the brand in the United States, may be evidenced by the opportunity of reply to our customers.

At the end of this year 2013, Const products will disappear from the international market and will only operate into the Chinese territory.

Regards

Tony Yang

Sales Manager
